

Phu CST LIBRARY
Phuentsholing : Bhutan

Patron-in-Chief
Dr. Cheki Dorji, Director

Acc No. J002

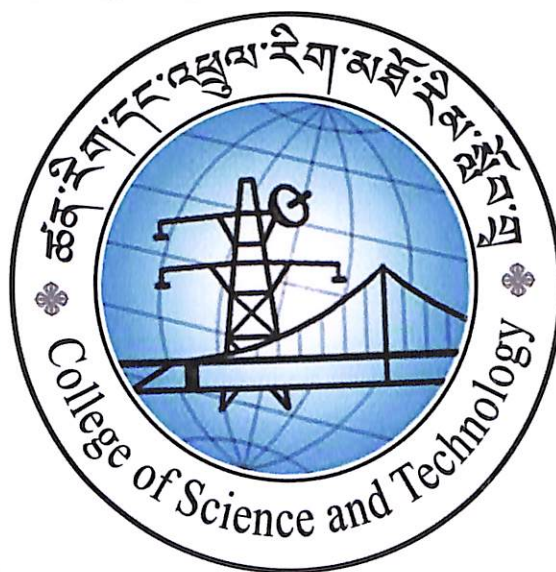

Class No. 91.5

Dt. of Acc. 22/9/2022

Editor-in-Chief
Ms. Pema Choezom, Department of Science And Humanities

Editorial Board

Mr. Tshering	Dean of Research and Industrial Linkages
Ms. Chimi Wangmo	Department of Civil Engineering
Ms. Dechen Lhamo	Department of Electronics & Communication
Mr. Tandin Wangchuk	Department of Information and Technology
Mr. Basant Pradhan	Department of Science and Humanities
Mr. Sonam Norbu	Department of Electrical Engineering

TABLE OF CONTENT

I. ABSTRACTS

❖ Solitary Wave Solution of Higher order Kadomstev-Petviashvili Equation for Complex Plasma	Pg. 01
❖ Dust Acoustic Shock Waves in Warm Dusty Plasmas	Pg. 02
❖ Study of Water Quality of Three Major Rivers of Bhutan	Pg. 03
❖ Passive Infrared (PIR) Sensor Based Security System	Pg. 04
❖ Webcam Driver to Automatically Record and Save Video Captured when the Webcam is connected	Pg. 05
❖ Dust Acoustic Shock Waves with Maxwellian Electrons and Ions in Warm Dusty Plasma	Pg. 06
❖ Support vector random field based approach towards object based classification of remotely sensed imagery	Pg. 07
❖ A web based semi-automatic frame work for astrobiological researches	Pg. 08
❖ An intelligent approach towards automatic shape modeling and object extraction from satellite images using cellular automata-based algorithms	Pg. 09
❖ An evolutionary computing frame work toward object extraction from satellite images	Pg. 10
❖ A Comparative Analysis on the Applicability of Entropy in Remote Sensing	Pg. 11
❖ A semantic parsing approach for Bhutanese language of Dzongkha	Pg. 12
❖ Intelligent adaptive resampling technique for the processing of remotely sensed imagery	Pg. 13
❖ A bi-lingual approach towards Dzongkha parsing	Pg. 14
❖ A semiautomatic forest management approach using remote sensing techniques	Pg. 15
❖ A comparative analysis of different DEM interpolation methods	Pg. 16
❖ A terrain-based hybrid approach towards DEM interpolation	Pg. 17
❖ Glacial lake monitoring and hazard assessment using multiple satellite datasets	Pg. 18
❖ An investigation over the modeling of water scarcity using Land cover and drainage pattern alternations	Pg. 19
❖ A CNN based Hybrid approach towards automatic image registration	Pg. 20
❖ GEOINT tool for war grounds: A generalization	Pg. 21
❖ An enhanced neural network based approach towards object extraction	Pg. 22

❖ Comparative analysis of common edge detection techniques in context of object extraction	Pg. 23
❖ Effective forest fire management using RS techniques	Pg. 24 to 25
❖ An Integrated Forest Management Approach	Pg. 26
❖ A SETI approach towards extra-terrestrial remote sensing	Pg. 27
❖ An Open Source Strategy towards the development of a Geo Spatial Frame Work in Public Health Domain	Pg. 28 to 29
❖ Graph based approach for effective segmentation in Dzongkha	Pg. 30
❖ Dependency approach for resolving issues in parsing of Dzongkha	Pg. 31
❖ Spatial analysis in public health domain: an NLP approach	Pg. 32
❖ Dust Acoustic Shock Waves with Non-Thermal Ions in a 3-Dimensional Dusty Plasma	Pg. 33
❖ Analysis and Evaluation of Mass Transit in Phuentsholing	Pg. 34

II. PAPERS

❖ Cost Control In The Bhutanese Construction Projects	Page 01 to 10
❖ Optimization of Solid Waster Collection and Transportation Route in Phuentsholing City Using GIS	Page 11 to 19
❖ Concrete Mix Design Using Steel Slag and Glass Waste	Page 20 to 27
❖ Hydraulic Modeling of Flood of Pochu River	Page 28 to 33
❖ Evaluation of Water Distribution Netrork System and Design of Water Treatment Plant for Phuentsholing City	Page 34 to 43
❖ Total Standby Power Consumption in College of Science and Technology	Page 44 to 50
❖ Automatic Answer Evaluation: NLP Approach	Page 51 to 56
❖ Clustering CST Telephone Bills Using SOM Algorithm	Page 57 to 62
❖ Clustering CST Telephone Bills Using Hybrid Pcak Algorithm	Page 63 to 69
❖ Indoor and Outdoor Wireless Local Area Network Design in CST campus	Page 70 to 78
❖ Present Lighting Scenario in Bhutan	Page 79 to 84
❖ Microcontroller Based Moving Message Display Using LED Dot Matrix	Page 85 to 93
❖ Survey of the Mobile Phone Preferences: A CST Case Study	Page 94 to 100
